

WALKTHROUGH FOR ETHERSHIFT

Start the game and walk up through the first level with the tutorial

The next map has enemies on it. The first you see are Evo, the pink character that shoots is named meo, left clicking with meo uses her gun, and right clicking uses her laser, although this uses up energy. Meo can also use "R" to reload.

You can switch to the other character Wing using the "F" key. Wing is a melee character that uses a sword. Left click swings his sword in the direction of the mouse and right click is his "Blink" he disappears and then reappears in the direction of the mouse, with an explosion that damages enemies. Wing also can use "R" to stun enemies

If the game is too difficult you can adjust the difficulty up and down in the pause menu "esc" key 50% is the lowest.

You can press 'P' to open an upgrade menu, whenever you gain a level, you get a point to upgrade your character

You zig-zag your way up the first map and exit in the top right

In the next map you can go in the building and save as well as craft, you can break down items to craft more. Walk through this map until you reach the top right

In the next map, make your way around to the top, then walk along the top right, until you reach the cave

In this room you can save and craft again.

In the next room you walk to the right and defeat enemies

The next room has enemies with shields, the shields are weak to wings sword swings but strong against meos bullets

The next room is a room that you can save and craft

The next room you can defeat the enemies and exit on the right

The next room you can go up to craft and the right to continue

The next room is the end, defeat the enemies and walk up to the top, where you can save to newGameplus and play again with all your upgrades

If you gain 10 level up points, you can buy access to a secret level
